Department:
Forestry, Fisheries and the Environment
REPUBLIC OF SOUTH AFRICA

REQUEST FOR QUOTATION (RFQ)

The Secretariat of the Benguela Current Convention (BCC) in partnership with the Department of Forestry, Fisheries and the Environment (DFFE) seek a service provider to procure Oiled Wildlife Response In-Field Rescue & Rehabilitation equipment and the storage facility equipment, to be utilised in the rehabilitation of oiled marine wildlife as preparedness and response to pollution-related incidences. The equipment will be stored and used from the West Coast National Park. Companies or persons with basic knowledge in marine oiled wildlife are invited to submit a quotation for the oiled wildlife response equipment as detailed in Annexure1.

Quotations and company profiles should be submitted on or before 1 September 2022, at 4pm, South African time. Terms of Reference (ToRs), with items lists are provided separately (A&B), for the temporal response equipment (A) and for the storage facility equipment (B). Service providers could provide quotations for the two categories of equipment (A&B) or choose to supply quotation for one category (A or B). Quotations should include costs for items and or services detailed in item lists provided in Annexure 1 of each ToRs'/specification's document. Quotations must be split for the TWO categories (A and B) of equipment.

All quotations with company profiles must be sent via e-mail to: Laimy@benguelacc.org

Quotations received after the deadline indicated above, shall not be considered for evaluation.

Thank you and we look forward to receiving your quotation.

Yours sincerely,

Millicent Makoala

A. TERMS OF REFERENCE (TOR) / SPECIFICATION

PROVISION OF THE OILED WILDLIFE RESPONSE EQUIPMENT AS DETAILED IN ANNEXURE 1A.

1. PURPOSE

To appoint a service provider to procure Oiled Wildlife Response In-Field Rescue & Rehabilitation equipment.

2. INTRODUCTION AND BACKGROUND

The Benguela Current Convention (BCC) is a multi-sectoral organisation established by Angola, Namibia and South Africa to promote regional collaboration for integrated management, sustainable development and protection of the marine environment, using an ecosystem approach to ocean governance in the Benguela Current Large Marine Ecosystem (BCLME). The BCC is the first inter-governmental Convention in the world to be based on the Large Marine Ecosystem (LME) concept of ocean governance – a move towards managing transboundary resources at the larger ecosystem level (rather than at the national level) and balancing human needs with conservation imperatives. The vision and objectives of the BCC are pursued through the implementation of a Strategic Action Programme (SAP). Pollution is considered to be a serious threat to the BCLME and is one of eight thematic areas in the SAP. The reason for this is that marine pollution in the BCLME is increasing due to, among others, coastal zone urbanization, expanding shipping and offshore drilling and mining activities. This ever-increasing use of the ocean space leads to increased risk of accidents that could result in marine pollution, especially from oil spills. BCC provides support at national level among its three-part states, to among other issues, address impacts of marine pollution.

South Africa's coastline is a viable contributor to the country's economy (O'Donoghue and Marshall, 2003), with its geographical position essential for maritime trade (Sharfman et al. 2012). However, this has had its disadvantage regarding pollution-related incidences, particularly from ships. Having been regarded as one of the busiest shipping routes (Wepener and Degger, 2012; Chasomeris, 2006), the increase in the frequency of oil spills has affected the density of seabird populations in and around the breeding habitats (Best et al. 1997; Trathan et al. 2015), some which have threatened conservation status. Colonies are susceptible to oil pollution from ships despite efforts to have ships sail at a distance from breeding colonies (Trathan et al. 2015).

Oil spills have devastating effects on other marine species such as seabirds, sea turtles, seals and otters to name a few. When the oil is spilt, it floats on the water surface marine animals use for breathing, accessing food and even resting. Oiling is extremely sensitive to marine animals through physical contact or ingestion where the effects may be lethal or cause both internal and external damage. Internal effects include gastrointestinal conditions such as ulcers and malnutrition; organ damage; anaemia and reduced reproduction. Physical effects include loss of natural waterproofing leading to hypothermia, dehydration and starvation; irritation to eyes, skin and mucous membranes and predisposes animals to infections.

Oiled wildlife was not formally recognized as part of the oil spill response in South Africa. This has resulted in the lack of coordination in response effort of oiled marine wildlife from government, industry and rehabilitation facilities. Furthermore, this, in turn, caused other significant consequences such as lack of animal welfare, limited window of opportunity for response, loss of biodiversity, bad public perception for both government and industry, legal issues and effects on other industries such as fisheries and tourism.

The Oiled Wildlife Response Equipment will not only prepare Management Authorities for responding to oiled marine wildlife but also increase their survival.

It is in this light that the Secretariat of the Benguela Current Convention in partnership with the Department of Forestry, Fisheries and the Environment (DFFE) seek a suitably qualified and independent service provider to procure Oiled Wildlife Response equipment specified in Annexure 1.

3. OBJECTIVES

The Secretariat of the Benguela Current Convention (BCC) in partnership with the Department of Forestry, Fisheries and the Environment (DFFE) seek a service provider to procure equipment to be utilised in the rehabilitation of oiled marine wildlife as preparedness and response to pollution-related incidences.

4. SCOPE AND EXTENT OF WORK

- 4.1 Procure the oiled wildlife response equipment as indicated in Annexure 1.
- 4.2 All service providers need to sign a code of conduct and service level agreement (SLA) upon nomination as successful bidder.
- 4.3 Bidders are advised to form a joint venture in the event where bidders are found not to possess all the requirements.

5. EXPECTED OUTCOMES

- 5.1 The Management Authorities have the required equipment to respond to rehabilitate oiled wildlife temporarily.

6. PERIOD / DURATION OF THE SERVICE

All Oiled Wildlife Response Equipment be purchased before 24 October 2022.

7. EVALUATION CRITERIA

- (a) The contract will be awarded to the qualifying Bidders as per the following criteria:
 - (i) Responsive/compliant/acceptable
 - (ii) Delivery Period, and

(iii) Having received the highest score out of a pre-determined set of weighted technical and financial criteria specific to the tender proposal. In this regard, the respective weight of the proposals are as follows:

- a. Technical Criteria weight is **70%**
- b. Financial Criteria weight is **30%**

Criteria	Weight	Max. Point
Technical Competence (based on CV, Proposal and interview (if required))	70%	100
(a) Proven knowledge and understanding of the supply and delivery of the required activities as per Annex 1 .		20%
(b) Proven work experience of the Bidders Team in supplying and delivering the required activities as per Annex 1 .		20%
(c) Response to the ToR and comprehensiveness of the Bid		20%
(d) Previously disadvantaged individual/ entities		10%
Financial (Lower Offer/Offer*100)	30%	30%
Total Score	Technical Score * 70% + Financial Score * 30%	

8. Modification of terms

The BCC reserves the right to add, modify or omit certain portions of the tender scope at any time at its sole discretion. This includes the right to cancel this tender at any time prior to entering into a contract with the successful bidder.

9. Tender award

The contract will be awarded to a successful bidder within twenty-one (21) days of closing of this tender and the successful bidder will supply and deliver the required Products and/or Services within the timeframe given in **Section 6, above**.

10. Prime contractor relationship

The BCC will enter into a contract with only one successful bidder.

11. Confidentiality

- (a) Tenders submitted will not be revealed to any other bidders.
- (b) The BCC reserves the right to seek clarification or verification of any information contained in the tenders.

- (c) All information pertaining to BCC obtained by the bidder as a result of participation in this tender is confidential and must not be disclosed without written authorisation from BCC.

12. Ownership of data

Any data of whatever nature resulting from the provision of the Products and/or Services shall be the property of BCC in partnership with DFFE and may be used by BCC and DFFE without restriction.

13. COMPULSORY BRIEFING SESSION

- (a) There will be **no** compulsory briefing meeting

14. SUBMISSION OF BIDS DOCUMENTS

14.1 The deadline for the submission of the quotation is 1 September 2022.

14.2 The Proposal shall comprise the following documents in electronic copies:

- (a) Technical Component inclusive of the information of the Company Profile
(b) Financial Component showing the quotation of the items to be provided

14.3 (a) Technical Requirements

Experienced and competent firms interested in this assignment should submit the following:

- I. A one-page letter of introduction identifying the bidder and signed by the person(s) authorised to bind the bidder to statements made in the proposal.
- II. A concise proposal indicating the approach and timeline for the assignment in a work plan format. The work plan for the Products and/or Services as per **Annex 1** must indicate the expected timeline for deliverables/milestones.
- III. Complete CVs of all qualified and experienced staff/consultants that will engage in the assignment, certified qualifications and other documentation in support of the CVs.
- IV. A Profile of the Company / Consultancy Firm / Consortium / Individual.
- V. All bidders are required to clearly state the name of the Primary Party with whom the BCC Secretariat will enter into an Agreement. In the event of a consortium, or group of companies jointly delivering a response, full details are required of each of the legal entities involved.
- VI. Description of role or element of the proposal to be fulfilled by any third-party and the full contact details of any third parties involved in the proposal (if applicable).

(b) Financial Proposal Requirements

Bidders must address all the items/products listed in Annexure 1.

Schedule of costs/financial proposal must take the following format:

- I. All costs must be quoted in South African Rand (ZAR).
- II. The total cost of the proposal be clearly indicated (best and final offer).
- III. All prices must be quoted including VAT, where applicable.
- IV. A breakdown of the pricing and cost components for the Products and/or Services set out should be in line with the given timelines.

14.4 The Financial Proposal should remain **valid for 90 (ninety) days** from the tender closing date.

14.5 The BCC may decide to reserve the right to annul the tendering process and not award the contracts.

15. PAYMENT TERMS

The Department undertakes to pay in full within 30 (thirty) days all valid claims for work done to its satisfaction upon presentation of a valid invoice. No payment will be made where there is outstanding information/work not submitted by the Service Provider until that outstanding information is submitted.

16. TECHNICAL ENQUIRIES

Should you require any further information relating to the Bid, kindly contact:

Name: Millicent Makoala

Office Telephone No.: 021 819 2637 **Cell No.:** 066 082 1010

E-mail: MMakoala@dfpe.gov.za

17. DELIVERY ADDRESS:

Bid documents including quotations must be sent via e-mail to:

Laimy@benguelaccc.org

Should the supplier/service provider choose to make hand delivery, bid documents must in a sealed envelope and delivered to the following address:

For attention: Ms T. Sineke

ANNEXURE 1

TEMPORARY RESPONSE EQUIPMENT LIST

Oiled Wildlife Response In-Field Rescue & Rehabilitation Equipment		
Shade cloth (40%)	Capture	5
Long-handled nets	Capture	5
Bird scare tape (rolls)	Hazing	10
Foghorn	Hazing	1
Foghorn refills	Hazing	1
Cable ties medium size (100)	Hazing	1
Duct tape	Hazing	1
Noisemakers (starter guns)	Hazing	1
Handheld mirrors	Hazing	1
Towels (large)	Capture	20
60ml syringes, the catheter tip	Oral fluid administration	100
14FG feeding tube	Oral fluid administration	100
Darrow's 2.5L	Electrolyte solution	2
Ringer Lactate 1L	Electrolyte solution	5
Needles 18G (100)	Administer fluids	2
60ml syringes, the Luer tip	Fluid administration	100
weighing scale	weigh birds	1
Stethoscope	Examination	1
10ml syringes	Fluid/medication administration	100
5ml syringes	Fluid/medication administration	100
2ml syringes	Fluid/medication administration	100
1ml syringes	Fluid/medication administration	100
ID tags (100)	individual identification tags for each bird	2
Scissors	Adjusting ID bands on the flipper	2
Pen dividers	For holding birds before placing in transport boxes	8
Clips for pen dividers	Holding pen dividers together to hold birds before placing in transport boxes	40
Transport tape	Tape transport boxes securely	5
Seabird transport boxes	Transportation of birds	200
Permanent markers	Marking boxes	2
Sharps container 5L	Safe disposal of needles	1
Biohazard Bags 100	hazardous waste	1
Black refuse bags (100)	Waste collection	1
First Aid kit	H&S	1
Tyvek suit (M, L, XL)	PPE	15

Gumboots (various sizes)	PPE	15
Reef gloves (XS, S, M)	PPE	15
Safety goggles	PPE	15
Oilskins (M, L, XL)	PPE	15
Nitrile gloves disposable (100) small, medium, large	PPE	3
Crocs (size 5-10)	PPE	15
Armguards	PPE	15
Head torch (LED)	Field work at night	5
Perspex face mask	PPE	6
Green plastic bags (20)	Dead bird collection	5
Cable ties, 200mm	Dead bird collection	100
Cable ties, 100mm	Dead bird collection	100
Tents	shade for birds and people	3
Porta-pools	5m width x 1.2m height	3
Accessories for pools	filtration equipment for pools	3
60ml syringes, the catheter tip	Oral fluid administration	100
60ml syringes, luer slip	Fluid administration	100
Ringers Lactate 1L	Electrolyte solution	5
10ml syringes	Oral fluid administration	500
5ml syringes	Oral fluid administration	500
2ml syringes	Oral fluid administration	500
1ml syringes	Oral fluid administration	500
Darrows 2.5L	Oral fluid administration	2
Deworming Ivomec* 1L	Anti-parasitic	1
Deworming Maxilent* 1L	Anti-parasitic	1
14 FG feeding tubes	Oral fluid administration	100
Fisheater tabs 500's	Supplements	1
Thiamine* 100's	Supplements	1
vit Bco tablets* 1000's	Supplements	1
Multivit* 1000's	Supplements	1
Brewers Yeast*	Supplements	1
Karbadust* 5% 500g	Insect and pest control	10
16 FG feeding tubes	To administer formula	100
Pen dividers	Holding birds before placing in transport boxes	32
Clips for pen dividers	Holding pen dividers before placing in transport boxes	128
Nomad matting (6m x 1,2m)	Pen flooring	6
Bowls	Feeding fish	5
Bowls	Medicated fish	5
Bowls	Disinfect syringes	1
Tubs	Defrosting Fish	4
Basins	To wash oilskins and boots	2
Ice cream containers (2L)	Miscellaneous	10
Scissors	Chop fish	4
Chopping board	To chop fish etc	2
Plates to feed birds (lids)	To feed flying birds	10

Bench weighing Scale	weigh fish	1
Feeding stools	Feeding birds	4
Tarpaulin (5m rolls)	Base layer under pools	6
Cotton buds	Cleaning oil from face	2
Scissors (oily)	Cutting tags	2
Thermometer	Water temperature taking	6
LDC 25 litres	Washing detergent	1
NITRILE Washing gloves, long sleeves	Washing	8
Betadine Oral 250ml	Washing	1
Chloramex 3.5g	Washing	10
Canola oil 2.5L	Washing	2
Spray bottles	Washing	4
Toothbrushes (NEW)	Washing	10
Savlon 2 litres	Washing	4
Plastic cups	Decanting soap	10
Measuring jug 1.5L	Measuring soap	4
Bucket	Emptying and filling washtub	10
Washtub 40L	Washing birds	5
Water storage tubs 60L	Storing warm water	2
Thick Hose pipes 50m + adapters (x4)	Washing & Rinsing	2
Thin Hose pipes + adapters (x4)	Washing & Rinsing	2
Non-slip mats	To avoid injury by slipping on a wet surface	10
Paper towels	Various uses	4
Good quality spray nozzles for end of hoses	To rinse birds + various functions	6
Good quality 'gun' nozzles for end of hoses	To rinse birds + various functions	6
Heat lamps 110/220V	Drying washed seabirds/warmth	3
Rubistar infra-red globes	Drying washed seabirds/warmth	10
Pet dryers	Drying washed seabirds/warmth	2

19. INTRODUCTION AND BACKGROUND

The Benguela Current Convention (BCC) is a multi-sectoral organisation established by Angola, Namibia and South Africa to promote regional collaboration for integrated management, sustainable development and protection of the marine environment, using an ecosystem approach to ocean governance in the Benguela Current Large Marine Ecosystem (BCLME). The BCC is the first inter-governmental Convention in the world to be based on the Large Marine Ecosystem (LME) concept of ocean governance – a move towards managing transboundary resources at the larger ecosystem level (rather than at the national level) and balancing human needs with conservation imperatives. The vision and objectives of the BCC are pursued through the implementation of a Strategic Action Programme (SAP). Pollution is considered to be a serious threat to the BCLME and is one of eight thematic areas in the SAP. The reason for this is that marine pollution in the BCLME is increasing due to, among others, coastal zone urbanization, expanding shipping and offshore drilling and mining activities. This ever-increasing use of the ocean space leads to increased risk of accidents that could result in marine pollution, especially from oil spills. BCC provides support at national level among its three-part states, to among other issues, address impacts of marine pollution.

South Africa's coastline is a viable contributor to the country's economy (O'Donoghue and Marshall, 2003), with its geographical position essential for maritime trade (Sharfman et al. 2012). However, this has had its disadvantage regarding pollution-related incidences, particularly from ships. Having been regarded as one of the busiest shipping routes (Wepener and Degger, 2012; Chasomeris, 2006), the increase in the frequency of oil spills has affected the density of seabird populations in and around the breeding habitats (Best et al. 1997; Trathan et al. 2015), some which have threatened conservation status. Colonies are susceptible to oil pollution from ships despite efforts to have ships sail at a distance from breeding colonies (Trathan et al. 2015).

Oil spills have devastating effects on other marine species such as seabirds, sea turtles, seals and otters to name a few. When the oil is spilt, it floats on the water surface marine animals use for breathing, accessing food and even resting. Oiling is extremely sensitive to marine animals through physical contact or ingestion where the effects may be lethal or cause both internal and external damage. Internal effects include gastrointestinal conditions such as ulcers and malnutrition; organ damage; anaemia and reduced reproduction. Physical effects include loss of natural waterproofing leading to hypothermia, dehydration and starvation; irritation to eyes, skin and mucous membranes and predisposes animals to infections.

Oiled wildlife was not formally recognized as part of the oil spill response in South Africa. This has resulted in the lack of coordination in response effort of oiled marine wildlife from government, industry and rehabilitation facilities. Furthermore, this, in turn, caused other significant consequences such as lack of animal welfare, limited window of opportunity for response, loss of biodiversity, bad public perception for both government and industry, legal issues and effects on other industries such as fisheries and tourism.

The Oiled Wildlife Response Equipment will not only prepare Management Authorities for responding to oiled marine wildlife but also increase their survival.

It is in this light that the Secretariat of the Benguela Current Convention in partnership with the Department of Forestry, Fisheries and the Environment (DFFE) seek a suitably qualified and independent service provider to procure a tailor-made storage facility (and sundries), for the safe keeping of Oiled Wildlife Response equipment, as specified in Annexure 1.

20. OBJECTIVES

The Secretariat of the Benguela Current Convention (BCC) in partnership with the Department of Forestry, Fisheries and the Environment (DFFE) seek a service provider to procure a tailor-made storage facility for the safekeeping of Marine Oiled Wildlife Response equipment.

21. SCOPE AND EXTENT OF WORK

21.1 Procure the oiled wildlife response equipment as indicated in Annexure 1.

21.2 All service providers need to sign a code of conduct and service level agreement (SLA) upon nomination as successful bidder.

21.3 Bidders are advised to form a joint venture in the event where bidders are found not to possess all the requirements.

22. EXPECTED OUTCOMES

22.1 The Management Authorities have a storage facility for the safekeeping of oiled wildlife response equipment.

23. PERIOD / DURATION OF THE SERVICE

All Oiled Wildlife Response Equipment be purchased before 24 October 2022.

24. EVALUATION CRITERIA

- (b) The contract will be awarded to the qualifying Bidders as per the following criteria:
 - (iv) Responsive/compliant/acceptable

- (v) Delivery Period, and
- (vi) Having received the highest score out of a pre-determined set of weighted technical and financial criteria specific to the tender proposal. In this regard, the respective weight of the proposals are as follows:
 - a. Technical Criteria weight is **70%**
 - b. Financial Criteria weight is **30%**

Criteria	Weight	Max. Point
Technical Competence (based on CV, Proposal and interview (if required))	70%	100
(e) Proven knowledge and understanding of the supply and delivery of the required activities as per Annex 1 .		20%
(f) Proven work experience of the Bidders Team in supplying and delivering the required activities as per Annex 1 .		20%
(g) Response to the ToR and comprehensiveness of the Bid		20%
(h) Previously disadvantaged individual/ entities		10%
Financial (Lower Offer/Offer*100)	30%	30%
Total Score	Technical Score * 70% + Financial Score * 30%	

25. Modification of terms

The BCC reserves the right to add, modify or omit certain portions of the tender scope at any time at its sole discretion. This includes the right to cancel this tender at any time prior to entering into a contract with the successful bidder.

26. Tender award

The contract will be awarded to a successful bidder within twenty-one (21) days of closing of this tender and the successful bidder will supply and deliver the required Products and/or Services within the timeframe given in **Section 6, above**.

27. Prime contractor relationship

The BCC will enter into a contract with only one successful bidder.

28. Confidentiality

- (d) Tenders submitted will not be revealed to any other bidders.
- (e) The BCC reserves the right to seek clarification or verification of any information contained in the tenders.

- (f) All information pertaining to BCC obtained by the bidder as a result of participation in this tender is confidential and must not be disclosed without written authorisation from BCC.

29. Ownership of data

Any data of whatever nature resulting from the provision of the Products and/or Services shall be the property of BCC in partnership with DFFE and may be used by BCC and DFFE without restriction.

30. COMPULSORY BRIEFING SESSION

- (b) There will be **no** compulsory briefing meeting

31. SUBMISSION OF BIDS DOCUMENTS

14.1 The deadline for the submission of the quotation is 1 September 2022.

14.2 The Proposal shall comprise the following documents in electronic copies:

- (c) Technical Competency Report inclusive of the information of the Company Profile
(d) Financial Component showing the quotation of the items to be provided

14.3 (a) Technical Requirements

Experienced and competent firms interested in this assignment should submit the following:

- VII. A one-page letter of introduction identifying the bidder and signed by the person(s) authorised to bind the bidder to statements made in the proposal.
- VIII. A concise proposal indicating the approach and timeline for the assignment in a work plan format. The work plan for the Products and/or Services as per **Annex 1** must indicate the expected timeline for deliverables/milestones.
- IX. Complete CVs of all qualified and experienced staff/consultants that will engage in the assignment, certified qualifications, and other documentation in support of the CVs.
- X. A Profile of the Company / Consultancy Firm / Consortium / Individual.
- XI. All bidders are required to clearly state the name of the Primary Party with whom the BCC Secretariat will enter into an Agreement. In the event of a consortium, or group of companies jointly delivering a response, full details are required of each of the legal entities involved.
- XII. Description of role or element of the proposal to be fulfilled by any third-party and the full contact details of any third parties involved in the proposal (if applicable).

(b) Financial Proposal Requirements

Bidders must address all the items/products listed in Annexure 1.

Schedule of costs/financial proposal must take the following format:

- V. All costs must be quoted in South African Rand (ZAR).
- VI. The total cost of the proposal be clearly indicated (best and final offer).
- VII. All prices must be quoted including VAT, where applicable.
- VIII. A breakdown of the pricing and cost components for the Products and/or Services set out should be in line with the given timelines.

14.4 The Financial Proposal should remain **valid for 90 (ninety) days** from the tender closing date.

14.5 The BCC may decide to reserve the right to annul the tendering process and not award the contracts.

32. PAYMENT TERMS

The Department undertakes to pay in full within 30 (thirty) days all valid claims for work done to its satisfaction upon presentation of a valid invoice. No payment will be made where there is outstanding information/work not submitted by the Service Provider until that outstanding information is submitted.

ANNEXURE 1

MARINE OILED WILDLIFE STORAGE EQUIPMENT LIST

Storage Container		
Shipping Storage Container (Tailor-made)	To store OWR equipment - West Coast National Park	1
Labelling/Branding of the Shipping Container	Wording and High-Resolution Logos to be provided by the Department and the BCC	1
Hygiene (for storage container)		
Mops	Cleaning/Hygiene	3
Buckets	Cleaning/Hygiene	3
Thin hoses	Cleaning/Hygiene	3
Hard broom	Cleaning/Hygiene	2
Soft broom	Cleaning/Hygiene	2
Dustpan and brush	Cleaning/Hygiene	2
F10 SCXD 5L	Cleaning/Hygiene	1
F10 SC 5L	Cleaning/Hygiene	1
Washing powder	Cleaning/Hygiene	1
Washing basket	Cleaning/Hygiene	2
Pegs (100)	Hanging washing	2
Washing line	Drying towels etc.	5
High-pressure hose	Mats and crates	1
PPE (for storage container)		
High visibility waistcoat	Health & Safety	6
Backpacks	Fieldwork	4
Lightweight Aluminium H-Frame Fishing Backpack	Fieldwork & capture	3
Wetsuits	PPE	2
Booties	PPE	2
Reef gloves in various sizes (from XS)	Capture	6
Safety goggles	PPE	6
Whistles	Attracting attention in the field	6
Oil Skins (S, M, L, XL, 2XL)	PPE	6
Nitrile Gloves (Disposable) – various sizes (boxes) 100	PPE	3
Tyvek suit (M, L, XL)	PPE	10
Crocs (sizes 5 – 10)	PPE	6
Arm protectors: REEF	PPE	6
Gumboots (various sizes)	PPE	6
Wastewater tank 5,000 L	Wastewater storage	1
